

PBE – Your partner in cGMP Compliance, Validation, Quality Assurance, Extraction Processes & Facility Engineering & Cannabis Producers License & Registration

PROFESSIONAL EXPERIENCE

Paul Laurent was born in Montreal, where he completed his primary, secondary and university studies. He has worked for several sectors of activity for the Canadian Government, Hydro-Quebec, universities and the Government of Quebec. Since the 1980s, he has invented commercially successful products and built his own business. Today, he advises inventors and entrepreneurs in product and business development.

In 2017-2018, at the request of a sponsor, Paul started from blank and developed a complete project on medicinal cannabis . He worked on several aspects of the project design including the following:

- License
- Construction of the plant
- Layout of the cultivation equipment
- Installation of atmospheric control equipment
- Installation of extraction equipment
- Product manufacturing
- Obtaining a letter of interest from a customer for the sale of the product for five years
- Contact with Université Laval in Quebec and Simon Fraser University in Vancouver.
